Overview

This document contains...

Long term overviews for the HIAS scheme of learning for mathematics for classes taught as Year 1 and 2 mixed year group.

Points to consider when using this resource

- This long-term plan identifies the key focus in each unit of work in the HIAS scheme of learning for mathematics. For more detail and a break-down of these objectives please refer to the relevant medium and unit plans.
- Medium term plans identify the objectives to be addressed in each unit.
- Unit plans identify a learning journey, required prior knowledge, misconceptions, key vocabulary, and suggested tasks. Appropriate models, images, concrete resources, and visual representations are an implicit element in all units.
- Plans are based on a **39-week school year** and will need to be **adjusted** on a term-by-term basis.
- **Note for mixed year groups: Some unit plans lengths have been adjusted on the long-term plan to align both year groups as best as possible. Adjust the unit plans accordingly.**
